
Listing of total estimates for: lemon1.tx'

Total quantity of tracer recovered	.55689	kg
	556.89	g
Total aquifer volume estimate	2288.2	m ³
Total aquifer surface area estimate	485875.10	m
Final tracer sorption coefficient	.00000	m
Percent recovery of tracer injected	185.6	%
Accuracy index (0.0 = Perfect Recov.)	-.8563	

An impossible conditions exists! Check your units for correctness or check to see if sample contamination has occurred (i.e., Has someone else been injecting the same tracer material in the area?). Also check your limits to integration and your discharge estimates. Discharge estimation errors are very common.
