RE: Neal's Landfill Superfund Site - Proposed Plan, Monroe County, Indiana.

Dear Mr. Alcamo:

Monroe County has reviewed the Proposed Plan for the Record of Decision Amendment for the Neal's Landfill Superfund Site. We agree with the USEPA and IDEM preferred alternative number 3 for the cleanup of water and sediment operable units at this site in Monroe County, Indiana.

Monroe County believes that Alternative 3 would be protective of local human health and our environment. The sediment cleanup/collection system improvement and operation of the current 500 gallons per minute water treatment plant meet the remediation goals and is cost effective compared to the other alternatives presented in this proposed plan.

Monroe County looks forward to working with USEPA and IDEM when this plan is implemented.

Sincerely,

Dennis Williamson  
Monroe County PCB Project Manager  
Monroe County Health Department
